

Bhadresh Arya

Summary

A versatile and skilled UI/UX Designer and Developer with a strong background in creating and maintaining responsive web and mobile applications. Proficient in HTML, CSS, JavaScript, Angular, and other modern libraries and frameworks. Passionate about delivering seamless user experiences through effective use of prototyping, wireframing, and graphic design tools. Demonstrates expertise in user-centered design principles, collaborating with cross-functional teams to translate business requirements into engaging digital solutions. Adept at integrating APIs, optimizing performance, and implementing CI/CD practices to ensure high-quality, scalable products.

Work

Jun'22 - Present
CSG International

User Interface Dev Engineer - I

- Collaborate with cross-functional teams including designers, developers, architect and product managers to implement user-friendly interfaces.
- Create and Translate wireframes and prototypes into high-quality code using HTML, CSS, and JavaScript then convert them into React.
- Develop and maintain responsive web applications, ensuring optimal performance across various devices and browsers.
- Integrate RESTful APIs and work with backend developers to ensure end-to-end functionality.
- Conduct code reviews and ensure adherence to best practices in coding standards, testing, and maintainability.
- Optimize application performance, troubleshoot issues, and implement solutions in a timely manner.
- Stay updated with the latest industry trends and technologies, applying them to improve development processes and enhance the user experience.
- Utilize version control systems and CI/CD like Azure Devops for efficient collaboration, version tracking, CI/CD, testing, release management and automated builds.
- Participate in Agile/Scrum ceremonies, contributing to PI and sprint planning, daily stand-ups, and retrospectives.
